

Program Goal: To provide graduates of entry into respiratory care professional practice degree programs with additional knowledge, skills, and attributes in leadership, management, education, research, and/or advanced clinical practice that will enable them to meet their current professional goals and prepare them for practice as advanced degree respiratory therapists.

Program Student Learning Outcomes:

Graduates of the Bachelor of Science in Cardiopulmonary Science will be able to:

1. Plan care in accordance with management and leadership principles for patients across the lifespan.
2. Integrate inherent values as defined by health law and ethics as a foundation for practice.
3. Synthesize knowledge of advanced therapeutics to improve patient-care outcomes.
4. Examine safe and appropriate care based on health promotion, disease, and injury prevention to improve population health.
5. Understand the importance of research to identify best evidence-based practices in health care.
